On-line tutoring from Reading Corps and Math Corps

Tutoring for students needing a skills boost.

We've turned our powerful Reading Corps and Math Corps programs into a free, virtual, one-on-one experience. Let's face it. COVID-19 has made everything this year challenging, especially learning. Our experts are ready to connect with your child and build up those essential skills. If you're a Minnesota family with a child in PreK - 8th grade, it's easy to get started. Join the squad!

How do I get tutoring for my child?

- 1 Request Help:** Let us know you'd like a hand and sign up for a consult at ScholarSquad.org.
- 2 Chat with an Expert:** Tell us about your child, ask questions and share concerns. Together we'll set up a time to do a quick screening with your child to get a sense of what they may need.
- 3 Begin Tutoring:** If the screening shows your child needs our help to boost their skills, we'll match them with a tutor who will provide one-on-one practice and support.

Supported by Proven Programs

Scholar Squad offers free in-home tutoring powered by the proven programs of Reading Corps and Math Corps. By partnering with schools, Reading Corps and Math Corps have already helped more than 300,000 children improve their skills and confidence. Due to COVID-19, we are now offering virtual, one-on-one tutoring directly to families, starting with Minnesota.

Reading Program

Reading Corps helps readers, age 3 to grade 3, get ready for Kindergarten and on track for third grade reading. Launched in Minnesota in 2003, the program is now offered in 12 states and the District of Columbia.

Math Program

Math Corps helps students in 4th - 8th grade build foundational math skills. Launched in Minnesota in 2008, the program is now offered in 5 states.

“As the parent of two children who work with a Reading Corps tutor, I have nothing but praise for this fantastic program. The strides my kids have made in their reading decoding and fluency skills have been absolutely amazing.”

Heather S. | Reading Corps Parent

What Scholar Squad Is and Isn't

-  **WE ARE** a free skill strengthening program that provides one-on-one tutoring for PreK - 8th grade students who qualify for support in reading or math after an assessment.
-  **WE ARE** experts in helping kids improve their skills and confidence in reading or math! Plus, the methods we use are proven to work.
-  **WE ARE NOT** tutors for hire. Our squad cannot help your child with homework questions or manage their distance learning. Your child's school is the best resource for that type of help.
